Philadelphia Street Car Men in Conference All Night.

Another Appeal to Be Made to President Welsh and Board of Union Traction Directors.

Philadelphia, Jan. 11.—The central committee of the Amalgamated Association of Street Railway Employes, which met early this morning to take action in regard to the grievances of the motormen and conductors of the Union Traction Company, adjourned about 3 o'clock without arriving at a decision. The committee luvited Dr. Judan Isaacs to address them, and be counseled moderation.

The headquarters of the Amalgamated Association were practically described up to no n today, and nothing authoritative as regards the probability of a strike could be learned.

A joint committee from the Universal Peace Union, Christian League, Toynbec Society, and the Women's Chion in the in-terest of labor will today wall upon Presi-dent John Lowber Weish and the board of directors of the Union Traction Company and endeavor to have the company arbitrate the grievances which the employes claim

House Continues the Consideration of the Question.

Mr. Wheeler Denounces the Method of Counting Heads to Make a Quorum.

The House proceeded at once today to the consideration of the changes in the code of rules, proposed by the committee. At the suggestion of Mr. Henderson, the paragraph regulating the counting of a quorum, when one fails to vote on any question, was temporarily passed.

Mr. Wheeler moved to strike out the paragraph -providing that "On demand of any member, or at the suggestion of the Speaker, the names of members sufficient to make a quorum in the ball of the House who do not vote shall be noted by the cierk and recorded in the journal, and reported to the Speaker, with the names of members voting, and be counted and announced in determining the presence of a quorum to do business

MR. WHEELER'S OBJECTION. His first objection to it, Mr. Wheeler said, was that it was unconstitutional, and if not unconstitutional, its operation would permit the passage of a bill, or even the

declaration of war in the House, by the votes of less than a majority of a quorum. Committee amendments were agreed to providing that the previous question shall be ordered by the votes of a majority of those voting, if a quorum be present; amendments to the title of a bill or resolution shall not be in order unitiafter its passage, and be decided without debate; requests for correction of the reference of the bills and other papers shall be decided with

Mr. Towne of Minnesota offered in the House today a resolution directing the Committee on Foreign Affairs to consider and report upon the advantages and prac-ticability of establishing a permanent court of international arbitration, representing the United States and Great Britain, with jurisdiction extending to all controversies between the two governments, except those involving the honor or autonomy of one

of the parties.

Captain Gaillard Makes Preliminary Inspection of Lyd cker Tunnel.

The Trip Through a Length of Two and a Half Miles Cocupled a Little Over an Hour.

Capt. Gaillard, who has had charge of the pumping at the Lydecker tunnel, made an inspection this morning to see that all was ready for the visit of the engineers' commission next week.

Assistant Engineer R. C. Snead, Forepast Hall and Capt. Gaillard made the entire trip through the tunnel, starting at the Rock Creek shaft and coming out at Howard University. The distance is two and one-half miles, and the trip was made in a little over an hour. The purpose of the inspection was not

to ascertain anything in regard to the main investigation, but thereby to deter-mine whether the pumping had been suf-ficiently thorough to enable a complete examination of the construction by the expert engineers. The result was entirely satisfactors.

expert engineers. The result was entirely satisfactory.

"Of course," explained Capt. Gaillaid.

"when I say that the tunnel was found to be perfectly drg. I do not mean it literally. There are points along the unlined sections where there are deep pools of water, but it was not expected that these would be pumped out. They will not interfere with the investigation, however. The trip this morning was not altogether a pleasure excursion, the captain said. Every member of the party was obliged to wear top boots and each man carried a lan-tern, for the place is as dark as the prover-bial pocket, and the path in the unlined sec-

The engineers will resurve their investiga-tion next Monday, unless heavy rains in the meantime fill the tunnet with water again."

ate Finance Committee will not report favorably on the 15 per cent duty on raw sugar.

The strength of Sugar had a good effect on the general market after the opening and an advance of 1-4 to 1 1-4 per cent followed. Tobacco led with sales up to 79
7-8. Later on Leather preferred weakened on the revival of the story about the dividend, and the stock fell from 58 3-4 to 57 1-8.

In sympathy with this break the general list ran off 1-8 to 1-2 per cent. London was a seller of all the international stocks except 8t. Paul. At 11 o'clock the market was rather weak in tone.

The movements in stocks were irregular during the last hour of business. Tobacco advanced to \$6 1-2 and Leather, preferred, recovered from 57 1-8 to \$8 1-8 in sympathy. At the close, the former retarned to 79 1-2 and there was a general, though fractional decline. The changes outside of the Industrials were confined within narrow limits throughout the session, save in one or two instances. Reading first assessment paid, rose from 7 7-8 to 9 and receded to 8 1-8; Mobile and Ohio jumped 4 to 25, and Edison Illuminating, of New York, 3 to 59 1-2. Speculation closed barely steady in tone.

doesn't give you a single privilege more than you have during this 1/3 off sale. You can choose from just as big a variety-have your money back if you want it-and all the other little favors that always stamped this as a pleas-ant and safe place to trade. This is the one great difference-now you can have any Man's, Boy's or Child's Suit Overcoat, Ulster or pair of separate Pants, in-cluding all the Black Goods—for one-third less than "marked-inplain-figures" - "firstof-season" prices. Here's three "once-in-a-great-while opportunities," that mean loss for us and gain for you from our new departments: \$2.50 for any \$4 hat in the house—\$1.75 for any of the \$2.50 Underwear
